

Irvin Benitez

Full-Stack Software Developer

+507 6361-5832 | Irvin.benitezs.26@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building scalable web applications using **Django, Flask, React, and Laravel**. Specialized in system modernization and legacy code refactoring, as well as AI API integration. Focused on delivering clean code, maintainable architectures, and operational process optimization.

PROFESSIONAL EXPERIENCE

Universidad Tecnologica de Panama (Alpha Persei)

Panama City, Panama

Full-Stack Developer — Academic Assistant

April 2025 – Present

- Developed and maintained an institutional scientific management system using **Django** and **PostgreSQL**.
- Legacy Code Refactoring:** Led the modernization of outdated modules, optimizing database queries and improving overall codebase readability.
- Implemented automatic synchronization of academic profiles through integration with external APIs.
- Automated report generation under international standards, significantly reducing manual workload for the team.

Self-Employed

Remote

PHP/Laravel Developer — Freelance

2024 – Present

- Built full-stack web applications end-to-end using **Laravel** and **MySQL**, covering backend logic through frontend views with **Blade**.
- Designed and implemented relational database schemas in **MySQL**, including migrations, seeders, and query optimization using Eloquent ORM.
- Developed authentication modules, role-based access control, and custom admin panels tailored to each client's requirements.
- Managed the complete project lifecycle: requirements gathering, development, testing, and production deployment.

Universidad Tecnologica de Panama (DEMI)

Panama City, Panama

Full-Stack Developer — Intern

February 2025 – March 2025

- Designed and deployed a comprehensive maintenance management platform using **Flask, Vue.js, and MariaDB**.
- Implemented a secure role-based authentication system aligned with institutional access policies.
- Built real-time dashboards for inventory control and support ticket tracking.
- Significantly improved departmental operational efficiency by digitizing previously manual workflows.

FEATURED PROJECTS

Generative AI Chatbot | Python, Gemini API, WhatsApp Business API

- Conversational bot leveraging natural language processing (NLP) for automated customer support.
- Integrated with the Gemini API to generate contextual, adaptive responses in real time.

Corporate Web Platform | PHP, MySQL, JavaScript

Freelance

- Full-Stack development of a corporate website featuring a custom CMS for content management.
- Implemented a secure admin panel with user management and a dynamic portfolio module.

TECHNICAL SKILLS

Languages & Backend: Python (Django, Flask), PHP (Laravel), Node.js, SQL

Frontend: React, Next.js, Vue.js, React Native, TypeScript, Tailwind CSS, HTML/CSS

DevOps & Tools: Git, GitHub, Docker, CI/CD, Postman, Linux

Databases: PostgreSQL, MySQL, MariaDB, SQL Server

Concepts: Code Refactoring, MVC Architecture, REST API, Scrum/Agile

EDUCATION

Universidad Tecnologica de Panama

Panama

B.S. in Software Development and Management

March 2023 – Dec 2026 (Expected)
